

## Parasoft Lotion

Composition: Jojoba Oil, Avocado Oil, Grape Seed Oil, Aloe Vera Oil, Olive Oil, Light Liquid Paraffin, Butylated Hydroxytoluene (BHT) and Butylated Hydroxyanisole (BHA).

### Jojoba Oil ( *Simmondsia Chinensis* Oil)

Jojoba Oil is obtained from the seed of the jojoba shrub. Jojoba shrub grows wildy in south western United States & arid areas throughout the world.

Jojoba Oil is composed of liquid wax esters with a combination of tocopherols, free sterols & unsaponifiable material. Jojoba Oil is stable in extreme temperatures.

Jojoba Oil acts as a moisturizer and emollient agent to improve skin elasticity & suppleness.

Jojoba Oil is completely miscible with the natural sebum of the skin. Jojoba Oil provides an absolutely non-oily and non-greasy, dry softening to the skin.

Jojoba Oil is a natural antioxidant having anti-inflammatory & antibacterial activity.

### Avocado Oil (*Persea Gratissima* Oil)

Avocado Oil is extracted from the Avocado fruit. Avocado is a tree native to Carribbean, Mexico, South America and Central America. Avocados are commercially valuable fruit and are cultivated in tropical climates throughout the world.

Avocado Oil is rich of lecithin, Vitamin A and Vitamin E. The antioxidants protect from the effects of unhealthy UV radiation contained in strong sunlight and the free radical generating pesticides. It also contains Vitamin D which is important for the biological processes within skin.

Avocado Oil acts as a moisturizer.

## **Grape Seed Oil (Vitis Vinifera Seed Oil)**

Grape Seed Oil is obtained from the seeds of Grapes (*Vitis Vinifera*). Most Grape Seed Oil is produced in Italy, France, Spain, Argentina and India.

The Grape Seed Oil is rich in antioxidants known as Oligomeric Proanthocyanidins (OPC).

Grape Seed Oil helps to protect from free radical mediated skin inflammation and to increase skin hydration.

## **Aloe Vera Oil (Aloe Barbedensis Oil)**

**Aloe Vera Oil** is made from the maceration of the aloe vera plant and infused with a base oil, resulting in an aloe vera oil extract.

Aloe Vera plants are mostly found in the regions of Africa but can be traced world wide according to climatic conditions (i.e. India).

Aloe Vera has shown moisturizing, antibacterial, antifungal and anti-inflammatory properties.

## **Olive Oil ( Olea Europaea Oil)**

Olive Oil is obtained from the fruit of olive. The Olive tree is an evergreen tree or shrub native to Mediterranean, Asia and parts of Africa.

Olive Oil is a rich source of mono-unsaturated fatty acids and antioxidant Vitamin A & E.

Olive oil is used as a moisturizer and emollient.

Olive Oil does not clog the pores.

## **Light Liquid Paraffin (Paraffinum Liquid)**

A purified mixture of liquid saturated hydrocarbons obtained from petroleum. Liquid Paraffin acts as a lubricant and emollient.

## **Butylated Hydroxytoluene (BHT) and Butylated Hydroxyanisole (BHA)**

Butylated Hydroxytoluene and Butylated Hydroxyanisole are used as antioxidants to prevent the oils used from oxidation and stabilize the formulation.
